THE DATA MANAGEMENT ASSOCIATION

Canberra Chapter

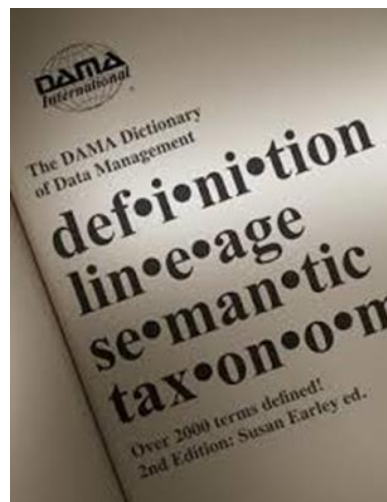

www.dama.org.au/chapters/canberra

DAMA International is a non-profit, industry association with 70 Chapters world-wide dedicated to support an empowered global community of information professionals.

DAMA provides a forum for members to exchange information, ideas, and experiences. DAMA aims to help data management practitioners in business and IT to be more knowledgeable and skilled in their profession.

DAMA offers:

- **Membership of DAMA Canberra Chapter** which includes reciprocal membership of DAMA Chapters in Sydney, Melbourne, Brisbane and Perth.
- **Regular Chapter Meetings** featuring presentations by fellow members as well as nationally and internationally recognised speakers including:
John Zachman Chris Bradley
Graeme Simsion Michael Schofield
- **Training and examinations** in data management functions to become an internationally recognised Certified Data Management Professional (CDMP).
- **Member discounts to DAMA training courses** on a wide range of information management practices from data modelling, data governance to consulting skills, held in Canberra and across Australia.
- **Member discounts to industry conferences, workshop and seminars, both overseas and in Australia** such as Enterprise Data World, Data Modelling Zone, Knowledge Management Asia Pacific Congress and Chief Data Officer Forums.

DAMA
GUIDE TO THE DATA MANAGEMENT
BODY OF KNOWLEDGE

PRINT EDITION 2010

The Data Management Body of Knowledge (DMBOK)

DAMA DMBOK defines a standard industry view of data management functions, terminology and best practices.

DMBOK provides a comprehensive framework for an organisation to develop and mature their data management function. The nature of data management remains the same across all organisations, though the scope and scale of implementation does vary.

The DMBOK is supported by the DAMA Dictionary of Data Management which contains over 2000 terms providing a common vocabulary for business and IT professionals working in data management.

Both books can be purchased via DAMA Canberra.

DAMA Canberra Chapter Membership

The DAMA Canberra Chapter focusses on networking, information sharing and raising awareness primarily in Government agencies. Members attend monthly DAMA presentations and networking events in Canberra and other DAMA Chapters in Australia at no cost. Members also receive discounts to conferences and training held within Australia. Current membership is:

- Student \$25 / year
- Individual \$100 / year
- Corporate \$400 / year

Join and pay online at www.dama.org.au/join/membership.

DAMA Canberra Annual Conference

DAMA Canberra organises the data or DAMA Stream of the Australian Computer Society (ACS) Canberra Annual Conference, including conference workshops presented by international and local experts on data management related issues. For more information on the conference visit the [ACS Canberra Chapter](http://www.acs.org.au/canberra) website.

DAMA Meetings in Canberra

DAMA Canberra holds monthly presentations followed by a social networking event. These meetings are held on the 2nd Tuesday of each month in either Civic or Woden.

Local speakers from Government and private organisations are encouraged to present on their experiences and provide case studies relevant to data management. Please email a short abstract and biography to president.canberra@dama.org.au if you are interested in speaking.

For more information regarding future and past events please visit www.dama.org.au/events.

DAMA Mentoring Program

DAMA Australia's mentoring program allows you to connect with Australia's most senior and prominent data professionals from various industries. The program includes:

- One-on-one mentoring sessions.
- Establishing career goals and identifying opportunities.
- Support from a dedicated DAMA mentor.

The mentoring program creates an environment where participants can exchange knowledge, share ideas and constructively evaluate their skill set. The program matches participants with a best-fit independent mentor.

For more information, please email president.canberra@dama.org.au.

Enhance Your Data Management Career!

Becoming a Certified Data Management Professional CDMP® requires in depth knowledge of the Data Management functions. Using the DMBOK as the foundation, DAMA provides recommended pathways to obtaining the required knowledge and understanding to receive a range of CDMP certifications.

In July 2016, DAMA launched www.cdmpaustralia.info as a source of CDMP information in Australia. The site contains information on certification levels, training and examinations in Australia.
